about us

what we do

contact us

Funny Piggy exists to connect you with your kind of people. The ones who think like you. Who share your values. Who already believe in what you're building — they just haven't found you yet.

That's it. That's the whole mission. We make friends between your brand and your people. Nothing serious.

about us

We Think...

Life's hard enough already — let's not make marketing harder than it needs to be. It's not Pythagoras' theorem. There's no hidden formula, no 47-slide funnel diagram.

We're a social media, marketing and PR studio built on one belief — brands don't need to sound like brands. They need to sound like people. Funny people. Your kind of people.

you (good) + your product (good) + Funny Piggy (magic) = happy customers, everywhere

Take it Easy

SOCIAL MEDIA MANAGEMENT

We post the stuff, reply to the comments, and make sure your brand shows up like it actually has a personality. Because it does. We just help it talk.

CONTENT CREATION

Reels, graphics, captions, memes, whatever the algorithm's obsessed with this week — we make it, and we make it good. No stock-photo energy. Ever.

PAID ADS

We turn your budget into actual results, not just impressions nobody remembers. Strategy first, spend second, screenshots of the ROI third.

BRAND STRATEGY & IDENTITY

Logos, tone of voice, color palettes, the whole vibe — we build the version of your brand that people want to follow, not just scroll past.

PR & PARTNERSHIPS

Getting your brand talked about, tagged, and taken seriously — by press, by influencers, by the internet at large. We handle the relationships so you don't have to cold-DM anyone.

what we do

Got a brand, a big idea, or just a vibe you want turned into content? Slide into our inbox — we promise it's less awkward than sliding into anyone else's.
